FIG. 16 is a perspective view of the device 100 in a retracted position. The device 100 includes a handle 2032, a shaft 2033, and a distal end 2050. The handle 2032 is connected to the shaft 2033, and the shaft 2033 is connected to the distal end 2050. The distal end 2050 includes a proximal end 2214 and a distal end 2216. The proximal end 2214 is connected to the shaft 2033, and the distal end 2216 is connected to the distal end 2050. The distal end 2050 is shown in a retracted position, where the distal end 2216 is positioned proximal to the proximal end 2214. The device 100 is shown in a perspective view, and the handle 2032, shaft 2033, and distal end 2050 are shown in a perspective view. The proximal end 2214 and distal end 2216 are shown in a perspective view. The device 100 is shown in a perspective view, and the handle 2032, shaft 2033, and distal end 2050 are shown in a perspective view. The proximal end 2214 and distal end 2216 are shown in a perspective view.
